YOUR TURN TOPICS

Giving seems to be an essential part of one's sense of meaning. Do you know of ways to facilitate giving opportunities among the frail elderly? 22(2):51-53

How do you address the spiritual identity of your patients when they have either verbalized or have physical manifestations of their faith in their possession? 22(9):47-50

How do you feel about caring for an older person with a sexually transmitted disease? 22(1):50-52

How do you handle the family who insists on restraints? 22(6):51-53

How do you make the care plan a "living," useful document for all caregivers? 22(8):51-52

If a terminally ill patient asked you to end his/her life, would you do it? 22(10):48-52

Theft in the nursing home is something we seldom read or hear about. Is this an issue in your setting? How can gerontological nurses address this issue in their nursing home? 22(5):48-50

What are the three most important wellness concepts every nurse should teach the elderly? 22(7):50-53
